

Racks and Accessories

We build every type of rack, box, canister, and divider imaginable for biological and pharmaceutical storage. We have a solution that is right for your business.

Our best in class stainless steel and aluminum racks, canisters and frames are available with:

- Racks are available for Chest, LN2, and Upright freezers
- Stainless steel construction means that racks stay cold in your freezer
- Racks can include a numbered system so that you can quickly inventory and select samples in your freezer

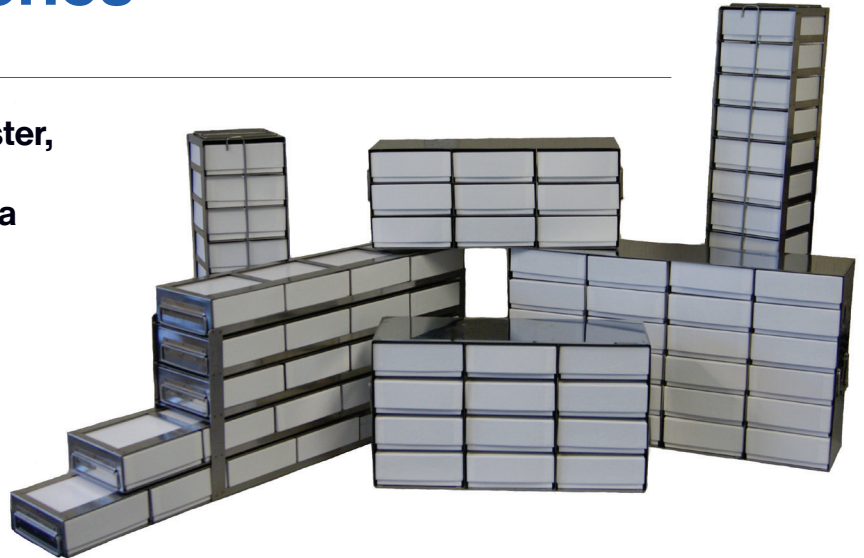

Our configuration experts will help you customize your freezers for all your samples and use cases.

Features/Specifications

- Our UTL 442-3 allows you to adjust the shelf spacing simply by moving the stainless-steel clips
- Racks give you the ability to store 2-inch or 3-inch boxes with one rack
- Each rack is shipped with 6 L - clips and 9 T - clips.
- Extra clips sold separate

We manufacture our freezer racks in our Detroit facility, using the latest technology:

- Robotic spot welding
- CNC machine tools
- Latest computer aided design software

Inventory control, made easy with our laser cut numbering system
